

Consumer Medicine Information

This leaflet answers some of the common questions about LACTEZIN®. It does not contain all the available information. It does not take the place of talking to your health professional.

What is LACTEZIN®

LACTEZIN® is a new clinically researched oral anti-acne Listed Medicine that carries a worldwide patent. LACTEZIN® contains bovine lactoferrin, zinc gluconate and natural vitamin E (from d-alpha-tocopherol acetate). Lactoferrin relieves the symptoms of acne and blackheads and helps reduce the occurrence of pimples. This daily formulation contains zinc which maintains healthy immune system function in adolescents and adults while also supporting wound healing and skin health.

What LACTEZIN® is used for

Lactoferrin relieves symptoms of acne, blackheads and pimples. Zinc supports healing of damaged skin. Both Zinc and Vitamin E are antioxidants which reduce free radical formation in the body.

How to use LACTEZIN® and how much to use

Take 2 capsules daily with food or as professionally prescribed. It will take at least 2 weeks to start seeing results. Based on clinical studies, best results are seen after 8 to 12 weeks. To help reduce the recurrence of symptoms of acne and pimples, continue to take 2 capsules daily for maintenance.

Medicine description

LACTEZIN® is supplied in a sealed carton containing 60 hard vege capsules. Capsules are contained in 4 foil blister strips of 3 x 5 rows. The appearance of the powder within the clear capsule is off-white to light pink with speckles.

Each hard capsule contains active ingredients:

Bovine lactoferrin	100 mg
D-alpha-tocopheryl acetate	8.1 mg
Equiv. d-alpha-tocopherol (Vitamin E)	7.4 mg (11 IU)
Zinc (as zinc gluconate)	5 mg

No added:

Sugar, Gluten, Wheat, Soya Bean, Yeast, Artificial Colours, Flavours or Sweeteners.

Warnings

Contains milk products. The lactoferrin contained in LACTEZIN® is derived from fresh Australian cow's milk.

Vitamin and mineral products should not replace a balanced diet.

If symptoms persist, talk to your health professional.

Always read the label and use only as directed.

Storage

Keep the medicine in a cool dry place where the temperature stays below 25°C
